

Scientific Activity

Here is referred the results about scientific activity in a long period lasting from 1975 to 2018.

“**Papers**”. The list of these papers has been drawn up with a chronological criterion starting from the most recent ones. In this session the links refer to works or Abstracts already published on platforms such as PubMed or Researchgate or refer to internal links of this Home page.

“**Abstracts**” Here are referred the works that did not lead, for various reasons, to the publication "in extenso", although the work had its own scientific relevance for the topics covered and for the method of research used.

“**Book and Book Chapters**” In addition to the book entitled “**Manuale Pratico di Elettrocardiografia Clinica**”, the Chapters of some books can also be consulted in the session.
